

REMARKS

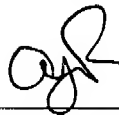

Claims 1 and 5 have been amended to recite that the polyisocyanate compound is selected from the group consisting of an aliphatic polyisocyanate and an aromatic polyisocyanate, to conform with Applicants' Remarks as set forth in the Amendment under 37 C.F.R. § 1.111 filed November 2, 2007 in response to the Rejection under 35 U.S.C. § 112, first paragraph.

That is, I is a group remaining after an isocyanate group is removed from a polyisocyanate compound selected from the group consisting of an aliphatic polyisocyanate and an aromatic polyisocyanate.

Claims 1 and 5 are further amended to delete the language "for example" with respect to the carbon atom range for the arylene group represented by Ar. Also, claim 2 has been canceled as not further limiting the subject matter of amended claim 1 from which it depends.

It is believed that the proposed amendments are appropriate so as to conform with the Remarks portion of the Amendment under 37 C.F.R. § 1.111 filed November 2, 2007. No new matter has been added. Entry is respectfully requested.

Respectfully submitted,
